**Tshwane North Community  
Development  
Forum**

*We serve because we care  
for children  
for the elderly  
for the addicted  
for those who are ill  
who are hurt  
who are vulnerable*

Lack of sufficient manpower, funding and facilities and other obstacles limit the effect of these inspiring groups of concerned citizens.

Some ills are more thoroughly addressed than others, and not enough attention is given to long term investments in community development and the prevention of problems, rather than treating the existing ones.

### **TSHWANE NORTH COMMUNITY DEVELOPMENT FORUM**

#### **What is the Forum?**

- A network of non-profit organisations and churches committed to the well-being of the Pretoria North-Akasia community and surrounding areas.
- Established to support its member organisations to coordinate and develop their limited resources to its full capacity as they strive to serve their communities.
- Registered as a non-profit organisation [NPO registration number 053-162]

#### **What do we do?**

The Forum

- Facilitates cooperation and coordination between organisations
- Builds the capacity of organisations through training
- Maintains a database of community services and facilities
- Serves as a central point for receiving and distributing donations
- Undertakes the marketing of its member organisations
- Has an electronic communication system to promote community involvement
- Facilitates access to resources on behalf of its member organisations
- Supports programme and project development of its members
- Empowers upcoming organisations

#### **Who are the members and what do they do?**

- More than 20 organisations and churches are members. [See overleaf]
- They work in various ways to facilitate social and community development and address social problems.
- The services offered are delivered without prejudice regarding race, class, gender or religion.

- These organisations make a huge difference in the lives of people and in the well-being of the area.

#### **How can you support us?**

Challenges are increasing as growing numbers of people experience social problems and needs. Insufficient manpower, funding and facilities make it increasingly difficult to reach the goal of effective service delivery to individuals and families.

- To achieve their goals, the Forum and its members rely on your support and input.
- Whatever you offer, can be put to use: time, skills, donations in cash and kind, facilities, expertise and services.

#### **Where can you find out more about us?**

To find out more about the Forum and its member organisations, or to make a contribution, use the contact details in this pamphlet.

### **A COMMUNITY OF CARE-GIVERS**

The communities of Pretoria North/Akasia in the very heart of the City of Tshwane, right on the edge of the vast Northern half of the city, have not escaped the ills that plague most of our country. Neither are the inhabitants shying away from their communal responsibilities.

Here several small organisations are bravely struggling against the social problems that face our young, elderly, the ill, poor, handicapped, HIV/AIDS-victims, homeless, etc.
